EDUCATIONAL MEASUREMENT

STATISTICS FOR EDUCATION With Data Processing

David White ——————————————— ***New***

Requiring only a knowledge of high school algebra, this class-tested introduction to statistics provides practical experience in applying statistical techniques to education topics. Thirty-four pages of raw data from two educational districts are provided for the student to use to select his own random sample and to enable him to become familiar with the characteristics of educational data. The text also includes instruction on the use of high-speed data processing for statistical analysis. 382 pp.; $10.95; October, 1973.

WRITING WORTHWHILE BEHAVIORAL OBJECTIVES

Julie S. Vargas

A self-instructional text that models the principles it teaches, this book teaches the student not only to recognize and classify behavioral objectives but also to write quality objectives at every cognitive level. 192 pp.; Paper: $3.20; 1972.

EDUCATIONAL MEASUREMENT FOR THE CLASSROOM TEACHER, Second Edition

Fred M. Smith and Sam Adams

Concise and updated, this Second Edition contains new material on the use and interpretation of standardized texts and on the concept and role of criterion referenced measurement. Emphasis is on the construction of achievement tests through properly stated behavioral objectives. 370 pp.; $8.25; 1972.

EDUCATIONAL MEASUREMENT AND EVALUATION

Don F. Blood and William C. Budd

For one-semester courses in educational measurement and evaluation, this sucoinct book is designed to help prospective and in-service teachers construct valid tests of achievement. All basic topics are covered using a practical and applied orientation. 212 pp.; Paper: $3.95; 1972.
